

Academic Consistency Tech Proficiency Co-curricular Excellence Team Management				
Degree	Board	Institute	Percentage	Year
MBA	IIM	Indian Institute of Management, Sambalpur	78.16	2027
B. Tech.	SOA University	Institute of Technical Education and Research	84.50	2023
HSC	C.B.S.E.	St. Xaviers High School	84.60	2019
SSC	C.B.S.E.	St. Xaviers High School	95.00	2017
INTERNSHIP (2 Months)				
Parry Enterprises India Ltd. (Murugappa Groups)		Business Analytics Intern	Apr'26 – May'26	
Roles & Responsibilities	- Designed AI-powered sales intelligence product via Claude API; shipped live tool beyond original project scope - Built & deployed a 6-screen BI dashboard enabling self-serve sales analytics across 5 years of transactional data - Designed GTM strategy for 3 product categories constituting phases: pricing models, phased roadmap & KPIs - Authored 7,200-word product spec with 25+ design tokens & 6-screen interaction states adopted by design team			
WORK EXPERIENCE (23 Months)				
Interface Software		Software Dev & Teaching Assistant	Jul'23 - May'25	
AI Product Innovation Customer Centricity Stakeholder Management				
Roles & Responsibilities	- Mentored 250+ learners in full stack, lifting the pass rate by 10% through coding and hands-on data exploration - Designed Python-based analytics labs: NumPy, Pandas & Matplotlib to teach visualization and data distributions - Built reproducible EDA notebooks and automated data-cleaning workflows in Python to generate visual reports - Designed feature flows & user stories for MERN & Figma prototypes across 20+ batches, aligning the needs - Created & maintained product-like SOPs, workflow diagrams and release notes for labs, improving consistency			
Initiatives & Achievements	- Qualified for Python by applying on datasets, then reusing those workflows to improve lab design & reporting - Clarified concepts with examples & earned positive feedback for communication, patience & approachability - Streamlined workflows and feedback loops to improve understanding, coding quality and student performance - Elevated learning outcomes & engagement by standardizing code reviews, EDA notebooks & LMS-based sets			
CASE COMPETITION				
NEST 2.0	Built pharmacovigilance product platform; National Semi-Finalist among 33K participants, Novartis			2026
VoyageHack 3.0	Designed scalable AI tech product features; National Semi-Finalist among 11K participants, TBO.com			2026
PROD-IGY	Delivered winning product strategy; 1st place among 356 teams, SCMHRD PROD-IGY 2025			2026
CERTIFICATIONS				
HelloPM Fellowship	- Pursuing HelloPM AI Product Management Program, learning product strategy, analytics, and execution - Applying structured product thinking through live assignments, case, prioritization, and experimentation - Developing practical exposure to AI-enabled product workflows, user research, metrics and growth levers			2026
Product Analytics	- Proposed feature deprecation via Adoption-Retention Matrix, theoretically reducing technical debt by 15% - Implemented the Product Analytics Hierarchy to advance organization towards Data Actualization - Constructed business case aligning product outcomes with business goals to justify roadmap investments			2025
AI for Product Management	- Formulated AI strategies driving product-led growth, automating workflows to enhance conversion rates - Leveraged Generative AI to accelerate development, automate user stories, personas & optimize tasks - Applied Agentic AI to analyze customer feedback and usage data, enabling data-driven discovery decisions			2025
Lean Six Sigma: Green Belt	- Completed Lean Six Sigma Green Belt training applying DMAIC, SIPOC, VOC and CTQ frameworks - Optimized business processes & minimized defects using statistical analysis & root cause frameworks - Applied Lean principles to drive waste reduction, cycle-time improvement & continuous improvement			2025
PROJECTS				
BidBuddy Elective Finder	- Built an elective-explorer application adopted by 300+ batchmates to simplify their course selection - Shipped course-filtering platform; drove 200+ active users through faster elective discovery across IIM - Led 5-member team building BidBuddy end-to-end, replacing manual elective search for entire cohort			2026
Froggy: Agentic Product Copilot	- Conceptualized FROGGY, an autonomous agentic AI system designed to automate complex workflows - Engineered agentic reasoning loops to orchestrate seamless task execution across emails, PDFs, Doc, etc. - Designed end-to-end automation features for report drafting, reducing manual effort and cognitive load			2025
Insight Engine: Power BI/SQL	- Orchestrated 10+ scalable data products integrating Snowflake and BigQuery for strategic analytics - Modeled robust Star Schemas and pipelines to ensure secure and scalable data for decision-making - Transformed raw metrics into actionable product insights using DAX and live interactive dashboards			2025
ACADEMIC & CO-CURRICULAR ACHIEVEMENTS				
Scholarships	Earned State Medhabruti and University performance scholarships totaling ₹1.8 Lakhs for academic merit			2019
Awards	Awarded ₹20,000 cash prize and merit certificate for achieving a perfect 10.0 CGPA in 10th board exams			2017
EXTRA CURRICULAR ACTIVITIES & INTERESTS				
B School Events	36 national B-school events with 22 podiums, 16 finalist distinctions across IIMs, IITs & top B-schools			2026
Sports	Represented Odisha in state-level handball & volleyball; won Athlos inter-B-school sports fest, XIMB			2016
Interests	Capturing moments and composing creative visuals through photography, focusing on art of uniqueness			2015
